

EDITORIAL NOTES.

Better days seem to be in store for Kennedy and the dawn of a new era is expected for that rich but unlucky mining camp within the next two months. All along, the chief obstacle in the way of Kennedy coming to the front, has been the difficulty of working the ore to a paying extent. It is believed that the obstacle has now been overcome and that the ores of the camp can be worked up to the required percent by a patent electric process, the right of using which is controlled by a San Francisco company.—Silver State.

Among the latest inventions which Yankee genius has given to the world in a doorknob which renders a latch-key superfluous. By rotating the knob in the same manner as a safe lock until the proper combination is secured the door can be opened. The lock is susceptible of 100,000 combinations, and he who knows not or has forgotten the proper one cannot obtain admittance through that door.

The fact that it takes a sober man to run it, makes it difficult to sell in this city.

Senator Warren of Wyoming intimates that he is ready to leave the Republican party if there is no fair silver plank. We fail to see what difference that would make, as a free silver plank in a Republican platform means no more to the party bosses, than a blot of ink accidentally fallen in among the resolutions.

The description of a new money order which is to be put in use as soon as the ones now in use are consumed, has been sent out by the Post Office Department. The new one is said to be smaller than the old one, and must be endorsed upon the back, in place of on the face, as is required by the order now used.

The Sacramento Bee has turned another volume. It is one of the leading exponents of red-hot, alive and jumping journalism for this Coast. It has what is most admirable in a newspaper, courage, ginger and enterprise.

The San Francisco Chronicle mentions a new yacht that "spun along without a hitch." The fact that she was not latched to anything was obvious by the rate of speed reached, which was several knots an hour.

A lone highwayman is said to have secured \$400 by holding up the Redding and Bieber stages. As the operation appears to be attended with little or no danger, the compensation is sufficient to invite competition.

Ocala is one of the liveliest camps in Eastern Nevada. The Ti-one mill is running steadily, and the company are going to put on extra teams and night shifts, and run the mill night and day after this week.

The "Rustler" says the Bandmen of the Clerk and Treasurer of Lyon county are circulating a petition among the tax payers to have the Commissioners defer action in the matter until prosperity returns to the county.

A gold ledge has just been discovered near Nevada City, which is said to be the richest ever found in that vicinity. It is estimated that the ore will average \$70,000 to the ton. The excitement is at fever heat in the vicinity of the find.

The gold bugs are ascertaining that the silver agitation has reached its zenith and is on the wane. The fight this year is a sham battle to what the fight next year will be.

Another of the immortal 600 has died. If all the dead men who were in the charge at Balaklava had really been there the foe would have been swept off the face of the earth.

It has been definitely decided to have a bull fight at the Cotton States and International Exposition. It will be given in the Mexican Village on the grounds.

The United States is still after that fifteen million that Senator Stanford stowed away years ago.

The Harbor Commissioners of California have signed a lease of the China Basin with the new Valley Road for a term of fifty years.

Cornell simply went to pieces in their race with Trinity Hall at Henly England. Any lot of boys could have acted better.

The Iowa Republican in State Convention yesterday boomed Allison for the presidency.

The floods in Kansas are still booming and reports of loss of life and property continues to come in.
